ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) Thomas Haigh, Mark Priestley, Crispin Rope

Conceived in 1943, completed in 1945, and decommissioned in 1955, ENIAC (the Electronic Numerical Integrator and Computer) was the first general-purpose programmable electronic computer. But ENIAC was more than just a milestone on the road to the modern computer. During its decade of operational life, ENIAC calculated sines and cosines and tested for statistical outliers, plotted the trajectories of bombs and shells, and ran the first numerical weather simulations. *ENIAC in Action* tells the whole story for the first time, from ENIAC's design, construction, testing, and use to its afterlife as part of computing folklore. It highlights the complex relationship of ENIAC and its designers to the revolutionary approaches to computer architecture and coding first documented by John von Neumann in 1945.

Within this broad sweep, the authors emphasize the crucial but previously neglected years of 1947 to 1948, when ENIAC was reconfigured to run what the authors claim was the first modern computer program to be executed: a simulation of atomic fission for Los Alamos researchers. The authors view ENIAC from diverse perspectives -- as a machine of war, as the "first computer," as a material artifact constantly remade by its users, and as a subject of (contradictory) historical narratives. They integrate the history of the machine and its applications, describing the mathematicians, scientists, and engineers who proposed and designed ENIAC as well as the men -- and particularly the women who -- built, programmed, and operated it.

From reader reviews:

Joanne Hall:

Book is to be different for every grade. Book for children until adult are different content. As we know that book is very important for us. The book ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) has been making you to know about other understanding and of course you can take more information. It is rather advantages for you. The e-book ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) is not only giving you considerably more new information but also to get your friend when you sense bored. You can spend your spend time to read your guide. Try to make relationship with the book ENIAC in Action: Making and Remaking the Modern Computer (History of Computing). You never truly feel lose out for everything if you read some books.

Jesse Reid:

Do you among people who can't read gratifying if the sentence chained in the straightway, hold on guys this aren't like that. This ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) book is readable through you who hate the straight word style. You will find the facts here are arrange for enjoyable examining experience without leaving possibly decrease the knowledge that want to provide to you. The writer of ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) content conveys the idea easily to understand by lots of people. The printed and e-book are not different in the information but it just different such as it. So , do you nonetheless thinking ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) is not loveable to be your top collection reading book?

Moses Bean:

You will get this ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) by browse the bookstore or Mall. Simply viewing or reviewing it could possibly to be your solve challenge if you get difficulties for your knowledge. Kinds of this reserve are various. Not only simply by written or printed but can you enjoy this book simply by e-book. In the modern era just like now, you just looking by your local mobile phone and searching what your problem. Right now, choose your own ways to get more information about your book. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose suitable ways for you.

Jared Carter:

That guide can make you to feel relax. That book ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) was multi-colored and of course has pictures on the website. As we know that book ENIAC in Action: Making and Remaking the Modern Computer (History of Computing) has many kinds or type. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. So , not at all of book are make you bored, any it

offers up you feel happy, fun and chill out. Try to choose the best book in your case and try to like reading which.
