**Psychology of Alcohol and Other Drugs: A Research Perspective** John R. Jung

Psychology of Alcohol and Other Drugs encourages the reader to become a critical consumer rather than a docile recipient of research information in this field, much of it interpreted in a highly dubious and frequently political manner.

The author offers a psychological perspective in his coverage of alcohol and drug-related issues, focusing in depth on key topics.

- Examines the contribution of research methodology to outcomes
- Offers alternative explanations to alcohol and drug-related issues
- Considers causal relationships in substance abuse
- Discusses alcohol and drug abuse in different groups defined by gender, age race, and marital status
- Includes Danish and Swedish studies of hereditary and environmental influences
