“Decline of the American Male” is a short report on how the men of this country are not what they used to be some twenty or thirty years ago. In this report we discuss what the problems are, the causes and even come up with some no nonsense solutions.

American men are not what they used to be, and that is a very sad fact. They are overweight, have poor social skills and many are “thug” wannabes! Is there something that could be done to change this dangerous tide for our country or is it too late?

Read our report: “Decline of the American Male” ... and we think you will be shaking your head in agreement with what we observe in today’s man. You may even agree with our recommendations on how to turn this around and get our young American men back on track!
