The most fascinating people are attractive because they possess emotional balance and are charismatic. The attraction is due to the passion with which they live their lives, an overflowing sexuality and a good self image about their prospects in life.

Men and women are built differently. Man sometimes needs only a moment to light up heels while she needs more time to fall in love.

The supermarket is a breeding ground and you can indulge, as in a Sherlock Holmes novel, to make inferences about the person you have in front of you. Your loneliness shouldn't be an issue if you read this book. Our strong argument is that the grocery store is a safe place to meet people, safer than other places. Picking up at a grocery store is more safe than in a bar or many other accepted place to meet someone special.

Do not waste any more of your precious life looking for love in all the incorrect places. Pick up Fresh and learn how to get fresh at your local grocery store, meet the write people and most of all have fun dating!
