Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) Juergen Geiser

Iterative Splitting Methods for Differential Equations explains how to solve evolution equations via novel iterative-based splitting methods that efficiently use computational and memory resources. It focuses on systems of parabolic and hyperbolic equations, including convection-diffusion-reaction equations, heat equations, and wave equations.

In the theoretical part of the book, the author discusses the main theorems and results of the stability and consistency analysis for ordinary differential equations. He then presents extensions of the iterative splitting methods to partial differential equations and spatial- and time-dependent differential equations.

The practical part of the text applies the methods to benchmark and real-life problems, such as waste disposal, elastics wave propagation, and complex flow phenomena. The book also examines the benefits of equation decomposition. It concludes with a discussion on several useful software packages, including r^3t and FIDOS.

Covering a wide range of theoretical and practical issues in multiphysics and multiscale problems, this book explores the benefits of using iterative splitting schemes to solve physical problems. It illustrates how iterative operator splitting methods are excellent decomposition methods for obtaining higher-order accuracy.

From reader reviews:

Paul Blum:

Here thing why this Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) are different and trusted to be yours. First of all looking at a book is good however it depends in the content of it which is the content is as delightful as food or not. Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) giving you information deeper and different ways, you can find any guide out there but there is no e-book that similar with Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series). It gives you thrill reading through journey, its open up your personal eyes about the thing that will happened in the world which is might be can be happened around you. You can bring everywhere like in recreation area, café, or even in your approach home by train. For anyone who is having difficulties in bringing the published book maybe the form of Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) in e-book can be your choice.

John Householder:

Do you one of people who can't read pleasant if the sentence chained from the straightway, hold on guys this specific aren't like that. This Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) book is readable by you who hate those straight word style. You will find the facts here are arrange for enjoyable examining experience without leaving also decrease the knowledge that want to give to you. The writer associated with Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) content conveys thinking easily to understand by many individuals. The printed and e-book are not different in the articles but it just different in the form of it. So , do you continue to thinking Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) is not loveable to be your top collection reading book?

George Thomas:

Often the book Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) will bring you to the new experience of reading a book. The author style to describe the idea is very unique. In the event you try to find new book to study, this book very suited to you. The book Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) is much recommended to you to learn. You can also get the e-book from your official web site, so you can easier to read the book.

Dale Randolph:

The reserve untitled Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical

Analysis and Scientific Computing Series) is the e-book that recommended to you to study. You can see the quality of the e-book content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of investigation when write the book, and so the information that they share to you personally is absolutely accurate. You also might get the e-book of Iterative Splitting Methods for Differential Equations (Chapman & Hall/CRC Numerical Analysis and Scientific Computing Series) from the publisher to make you a lot more enjoy free time.
