Excerpt from The Stories of the Kings of Norway Called the Round World, Vol. 1: Heimskringla

In this book have I let write tales told concerning those chiefs who have borne sway in the Northlands, and who spake the Danish tongue, even as I have heard men of lore tell the same; and also certain of their lines of kindred according as they have been taught to me. Some of this is found in the Tellings-up of Forefathers, wherein kings and other men of high degree have traced their kin ; but some is written after olden songs or story-lays, which men have had for their joyance. Now though we wot not surely the truth thereof, yet this we know for a truth, that men of lore of old time have ever held such lore for true.
