A STAND ALONE ALIEN ROMANCE!!!

Kelly awoke with a start in the night unable to move her limbs. This wasn't a sensation that she was unused to, as she had had bouts of sleep paralysis since she was a child. Many of the nights that she lied in her bed trapped under her sheets, she saw large, masculine figures crowded around her, looking down at her, helpless under invisible weights. As always, she stopped and told herself not to panic.

Yes, the feeling of being at the mercy of someone or something else was a horrifying one, but this was something that she was used to. She woke up frozen in the night because there was something wrong with the way her brain worked, not because she was in a trance or about to be abducted. This was a night just like any other over the course of her life, and nothing that she should be worried about.

This content contains hot romance with some scorching sex scenes, adult language and possible violence. Only for 18+!
