The Time Machine (Enriched Classics) H.G. Wells

The Time Traveller, a dreamer obsessed with traveling through time, builds himself a time machine and, much to his surprise, travels over 800,000 years into the future. He lands in the year 802701: the world has been transformed by a society living in apparent harmony and bliss, but as the Traveler stays in the future he discovers a hidden barbaric and depraved subterranean class. Wells's transparent commentary on the capitalist society was an instant bestseller and launched the time-travel genre.

The Time Machine inspired the international bestseller *The Map of Time* by Félix J. Palma. As a gift to our readers, we are including the first three chapters of *The Map of Time* in this ebook edition.
