Between Church and State: Religion and Public Education in a Multicultural America

James W. Fraser

Between Church and State: Religion and Public Education in a Multicultural America James W. Fraser

Today, the ongoing battle between religion and public education is once again a burning issue in the United States. Prayer in the classroom, the teaching of creationism, the representation of sexuality in the classroom, and the teaching of morals are just a few of the subjects over which these institutions are skirmishing. James Fraser shows that though these battles have been going on for as long as there have been public schools, there has never been any consensus about the proper relationship between religion and public education. Looking at the most difficult question of how private issues of faith can be reconciled with the very public nature of schooling, Fraser paints a picture of our multicultural society that takes our relationship with God into account.
