The Reference Guide for the Pharmacy Licensing Exam-Questions and Answers-2014-2015 Edition is specifically written for the preparation of NAPLEX® and Canadian Qualifying Exams. It contains over 1200 questions with answers and complete explanations. The exam puts more stress on trade names of drugs and therefore most questions have been formatted by using trade names instead of generic names. Another impressive feature of this review guide is its case-study format. This will give you the feel of the actual NAPLEX® exam. I have also included TPN, Herbal Drugs and OTC case-studies since these are equally important to achieve a good score in the exam. In addition to this, students must have knowledge about interpreting laboratory tests results; for this I have devoted 30 to 40 questions on this topic; interpreting laboratory results. This textbook has over 1200 questions with answers and complete explanations. Over 35 patient-profile related questions provide a complete practice for NAPLEX examination. Updated information on newly available drugs. Brief review on over-the-counter & I.V. medications in case-study format. Complete exercise on how to interpret & answer patient's profile in examination. Brand and generic names of medications highly utilized in the U.S.
