Have you thought about what you want to be doing in five years' time? Are you clear about what your main objective at work is at the moment? Do you know what you want to have achieved by the end of today? If you want to succeed, you need to set goals. Without goals you lack focus and direction. Goal setting not only allows you to take control of your life's direction; it also provides you a benchmark for determining whether you are actually succeeding. Think about it: Having a million dollars in the bank is only proof of success if one of your goals is to amass riches. If your goal is to practice acts of charity, then keeping the money for yourself is suddenly contrary to how you would define success.
