In "Constitutionalism, Executive Power, and the Spirit of Moderation," contributors ranging from scholars to practitioners in the federal executive and judicial branches blend philosophical and political modes of analysis to examine a variety of constitutional, legal, and philosophical topics. Part 1, The Role of Courts in Constitutional Democracy, analyzes the proper functions and limits of the judiciary and judicial decision making in constitutional government. Part 2, Law and Executive Authority, reflects on the tensions between constitutionalism and presidential leadership in both domestic and international arenas. Part 3, Liberal Education, Constitutionalism, and Philosophic Moderation, shifts the focus to the relationship between constitutionalism and political philosophy, and especially to the modern modes of philosophy that most directly influenced the American Founders. A valuable resource for specialists, the book also will be of use in political science and law school classes."
