A witty, lighthearted and sometimes irreverent look at world religions, their foibles, idiosyncrasies and pitfalls through the eyes of a self-confessed and perhaps reluctant agnostic.

After decades of serious thought and contemplation, I would bet that if God does indeed exist, He (She or It) must surely have a wicked sense of humour! The only thing that makes sense, to me at least, other than complete random chance, is that God was bored and needed some new entertainment for a few centuries or millennia. So He set up the game of 'humanity'. Within these pages, through use of both humour and logical reasoning, you will be challenged to reassess your relationship to your God (or Gods) and discover why, if one attempts to use logic and commonsense, most religious doctrine starts to collapse like a house of cards. If you are among those not secure enough in your own faith to subject it to scrutiny, you should probably NOT read this book. If, on the other hand, you are prepared to bring an open mind, you may find some new questions to your answers! This book is a sometimes serious, but more often humourous exposé of my personal musings, experiences and deductions on the topic of religion. I hope that you accept it in the lighthearted manner that it was conceived and written..
