## **Capital social in Romania inceputului de Mileniu: Drumet in tara celor fara de prieteni? (Romanian Edition)** Bogdan Voicu

"Volumul de fata nu este intr-atat de cuprinzator. El isi propune sa contribuie la familiarizarea publicului romanesc cu ceea ce este capitalul social, cu rolul sau in dezvoltarea sociala si cu principali factori societali si individuali ce contribuie la formarea si mentinerea acestuia. Din acest punct de vedere, cartea este orientata catre politicile de dezvoltare. Orientarea in cauza este insa una implicita, nefiind explicita prin structura volumului. Primul capitol discuta despre capital social in ansamblul sau, oferind elemente legate de istoria conceptului, de utilizarea si utilitatea sa in procesele de dezvoltare, precum si o analiza a nivelelor capitalului social in Romania anilor 1990. Al doilea capitol reia discutia despre Romania, plasand-o de aceasta data la nivelul anilor 2003. Al treilea capitol se concentreaza exclusiv pe problema voluntariatului si ai determinantilor acestuia. Capitolul patru construiește modele explicative pentru increderea in oameni, increderea in institutii, frecventa intalnirii prietenilor si participarea in asociatii, punand accentul pe modurile de producere a capitalului social si pe diferentele dintre estul si vestul Europei. Ultimul capitol revine la politicile de dezvoltare, discutand despre potentiale riscuri asociate utilizarii (excesive) a capitalului social ca si catalizator in politicile comunitare si de dezvoltare sociala. O parte din materialele incluse in acest volum reproduc texte pe care le-am scris in ultimii zece ani. Primul capitol a aparut ca atare in Voicu (2005b). Versiunea curenta include doar modificari minore si cateva actualizari neinsemnate. Al doilea si al cincilea capitol au fost publicate ca articole in doua jurnale stiintifice romanesti. Pentru reproducerea acestor texte am obtinut acordul editorilor publicatiilor unde au aparut initial. Capitolul trei reprezinta o prelucrare superioara a unor texte mai vechi. El este inedit, chiar daca l-am finalizat intr-o prima forma in 2005. Capitolul patru este complet nou atat din perspectiva faptului ca nu l-am publicat pana acum nicaieri, dar si prin faptul ca l-am finalizat efectiv cu doar putin timp inainte de a trimite cartea la tipar (am prezentat insa versiuni intermediare ale sale in doua conferinte internationale). Fiecare dintre capitolele acestui volum poate fi citit independent de toate celelalte. Aceasta optiune implica un neajuns important, legat de nevoia de a repeta la inceputul fiecarui capitol ce este si cum se masoara capitalul social. Cred insa ca acest neajuns este pana la urma in beneficul cititorului. Am folosit in carte texte scrise pe parcursul a 6-7 ani. Acestea sunt ordonate relativ cronologic. Prin urmare, modul de descriere a ce inseamna capitalul social este usor diferit de la un capitol la altul: in primul dintre texte acord un mai mare spatiu pentru a descrie contributiile celor trei parinti fondatori, pentru a discuta valentele utile in dezvoltarea sociala, a formelor si manifestarilor capitalului, pe scurt, aloc mai mult spatiu partii de definire."
