The Bronze Killer : New Edition Marie Warder

Hemochromatosis — not too many people know the definition of the word or realize just how deadly a disease it can be. Marie Warder found out first hand when her husband became sick. For six years, she watched as his eyesight deteriorated, his personality changed and he grew sicker. Finally, a doctor diagnosed the problem: an overload of iron in his body. Luckily, it was caught in time and he was bled a gallon of blood per month to save his life. In *The Bronze Killer*, Warder provides much needed information about this common enemy, from recognizing its symptoms to stressing the importance of early detection and treatment. Recommended by physicians in many hospitals and also includes a layman's reference on the disease, *Iron...The Other Side of the Story!*
