Tropical Soils: Properties and Management for Sustainable Agriculture (Topics in Sustainable Agronomy) Anthony S. R. Juo, Kathrin Franzluebbers

Agricultural ecology, or agroecology, deals in general with the structure and function of agroecosystems at different levels of resolution. In this text/reference, the authors describe in terms of agroecology the tropical environments of sub-Saharan Africa, Southeast Asia, and Latin and Central America, focusing on production and management systems unique to each region.
