**Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users** Haniph A. Latchman, Srinivas Katar, Larry Yonge, Sherman Gavette

The only authorized book explaining the HomePlug networking standards

HomePlug is a growing technology for creating high-speed Power Line Communication (PLC) networks by transmitting data over in-home or in-office power lines. Users only need to plug adapters into wall outlets to create an instant network of computers, printers, routers, home entertainment devices, and appliance control systems.

HomePlug AV and IEEE 1901: A Handbook for PLC Designers and Users provides for the first time an opportunity for non-members of the HomePlug Alliance to gain in-depth insight into the design and operation of the HomePlug standards. Offering a clear and simple description of the standards, this groundbreaking resource presents HomePlug AV and the associated IEEE 1901 standards in terms more readily understood by a much wider audience, including nontechnical managers, engineers, students, and HomePlug designers.

The book details the many benefits of HomePlug AV, including: An affordable, secure alternative or complement to WiFi--especially in buildings where WiFi reception is poor or running new network wires is impractical Higher potential data transmission rates up to 200 Mbps Support for multimedia applications such as HDTV and VoIP

The book also provides an overview of the HomePlug Green PHY standard that is targeted for use in smart energy applications, and the HomePlug AV 2.0 standard that operates at up to 1.5 Gbps.

An essential tool for designers of HomePlug devices, network administrators, and individual users of HomePlug networks who need to understand the features and capabilities of HomePlug, HomePlug AV and IEEE 1901: A Handbook for PLC Designers and Users will also prove useful for researchers in academia and the power line communications industry.

### **From reader reviews:**

#### **Seth Sawyer:**

This Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users are reliable for you who want to be a successful person, why. The reason why of this Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users can be among the great books you must have is usually giving you more than just simple looking at food but feed anyone with information that probably will shock your prior knowledge. This book will be handy, you can bring it just about everywhere and whenever your conditions in e-book and printed types. Beside that this Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users forcing you to have an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we understand it useful in your day action. So , let's have it appreciate reading.

#### **Noel Klein:**

A lot of people always spent their own free time to vacation or go to the outside with them friends and family or their friend. Do you know? Many a lot of people spent these people free time just watching TV, or playing video games all day long. If you need to try to find a new activity honestly, that is look different you can read any book. It is really fun for you personally. If you enjoy the book which you read you can spent the entire day to reading a e-book. The book Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users it doesn't matter what good to read. There are a lot of people that recommended this book. They were enjoying reading this book. In case you did not have enough space to develop this book you can buy often the e-book. You can m0ore effortlessly to read this book through your smart phone. The price is not too expensive but this book has high quality.

#### **Diane Morgan:**

You will get this Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users by browse the bookstore or Mall. Just viewing or reviewing it could possibly to be your solve issue if you get difficulties for ones knowledge. Kinds of this book are various. Not only by means of written or printed but can you enjoy this book simply by e-book. In the modern era just like now, you just looking of your mobile phone and searching what your problem. Right now, choose your own ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still upgrade. Let's try to choose correct ways for you.

#### **Lori Whitten:**

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library in order to make summary for some publication, they are complained. Just little students that has reading's spirit or real their interest. They just do what the educator want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know

that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Homeplug AV and IEEE 1901: A Handbook for PLC Designers and Users can make you truly feel more interested to read.
