**The Nuclear Arms Race: Technology and Society** Paul P. Craig, John A. Jungerman

This new edition of a very current interdisciplinary book covers both technical material and social issues, to give readers of all backgrounds a sense of the overall implications of the arms race. Weapons are the primary focus of the book, with the history of their development and nuclear politics included in the introductory chapters. There is a thorough discussion of global nuclear exchange, which considers the consequences of an all-out nuclear war, the psychological impact of the threat and actual nuclear war; the atomic bombings of Japan; and the biological effects of radiation from nuclear weapons.
