Behind Frida Kahlo's portraits, lies the story of her life – a body of work drawn from cries of anger and fury, blended into a potent and artistically exceptional combination. At six years of age, she suffered a bout of polio, and she was just 18 when a terrible bus accident changed her life forever, leaving her handicapped and burdened with constant physical pain. But her explosive character, raw determination, and hard work helped to shape her artistic talent. Kahlo managed to forge a place for herself in the macho society of Mexico, despite the double handicap of her crushed body and her sex. Frida Kahlo's work plays an important part in the artistic heritage of Mexico, her native country, with both its novelty and its multi-cultural values. The story and the paintings that Frida created provide a rare and courageous account of a woman on a voyage of constant self-discovery. This book offers a valuable overview of her work in a convenient format, making it the perfect gift.
