The Strategy of Nonviolent Defense Robert J. Burrowes

Because of the way in which the history of nonviolence has been marginalized, relatively few people have a sense of the rich history of nonviolent struggle or realize that it can be systematically planned and applied. Nevertheless, the historical record illustrates that nonviolent struggle is a powerful form of political action. But can it be effective against military aggression?

The Strategy of Nonviolent Defense answers this question in the affirmative by first defining the notion of social cosmology the four mutually reinforcing features that determine the character of any society. It then devotes attention to strategies for dealing with conflict, in particular, to developing a strategic theory and framework for planning a strategy of nonviolent defense. In order to develop this theory, Burrowes synthesizes insights drawn from the strategic theory of Carl von Clausewitz, the nonviolence of Mahatma Gandhi, and recent human needs and conflict theory."
