Zero Phase: Apollo 13 on the Moon (Altered Space) (Volume 1) Gerald Brennan

May, 1970. After a one-month launch delay, Apollo 13 lands in the Fra Mauro Highlands of the moon—and then the trouble starts. The first in a series of what-if stories from the golden age of space exploration, Zero Phase was written based on meticulous research, and with assistance from two Apollo astronauts: Dr. Edgar Mitchell, the only remaining person to have visited the Fra Mauro Highlands—and Captain Jim Lovell, the man who was supposed to go. Dramatic, detailed, and finely written, this novella is a must-read for space aficionados and literary enthusiasts alike.
