Foundations of Social Work Practice: A Graduate Text Mark A. Mattaini

This fourth edition of the Foundations of Social Work Practice is the best current scholarship that challenges the conventional wisdom of social work practice across all system levels individual, family, group, organization, and community. The framework for this edition offers a coherent approach to integrating four critical perspectives on practice: ecosystems, social justice and human rights, evidence-based practice, and shared power. These perspectives are interwoven throughout the text and offer a teaching strategy on how to achieve the integration of perspectives. Foundations of Social Work Practice is written at a level that adequately challenges graduate students and fosters their intellectual development from the very beginnings of their graduate experience. The editors intent is to promote the concept that although many social work practice functions can be performed effectively by paraprofessionals and bachelors-level staff, the primary function of the graduate-level social worker is not so much to simply act as to thinkto understand the perplexing intricacies of each clients unique dilemma and to develop interventive strategies that are based on that understanding.
