Mormon Crisis: Anatomy of a Failing Religion James a. Beverley

Mitt Romney's run for President of the United States created enormous interest in the Church of Jesus Christ of Latter-day Saints. In spite of enormous media focus during the so-called Mormon Moment, coverage was often shallow and misleading, even from the LDS Church. Few reporters dug deep enough to deal with the evidence that the Mormon Church is in a deep crisis, not only because of members leaving but because of increasing proof of lies, fraud, false teaching, and criminality at the start of Mormonism. James Beverley tells the Mormon story as few can. He has studied Mormonism for over 35 years and has consulted frequently with other experts on Mormonism, both LDS and outside the LDS Church. His research trips to Utah have included interaction with polygamous Mormons, major LDS scholars, and the Attorney General of the State of Utah. Mormon Crisis deals with major issues about Joseph Smith, the first LDS prophet, provides sustained critique of Mormon Scripture, examines flaws in the LDS understanding of Church leadership, and probes unique doctrines and practices, including the secret temple ceremonies. The book offers a serious indictment of the current LDS belief system but also a way out of the current crisis facing one of America`s most famous and controversial religions.
