Controlling represents an organization's flow of cost and revenue and is a management instrument used to make organizational decisions. This book isolates Controlling from SAP ERP Financials and focuses on what a company needs to do get the most out of an implementation once that is complete. Starting off from where the Optimize Your SAP ERP Financials Implementation book ended, this book focuses on the Controlling aspects of an SAP Financials implementation. By isolating Controlling it maps the management reporting processes to the business process flows. The real life case-studies, examples and best practices illustrate Controlling-related business processes and hones in on how SAP Controlling supports management reporting requirements.

This is the companion book to Optimize Your SAP ERP Financials Implementation.
